## Utilities and Cleantech Service Offerings

### Towards the energy of the future

Utilities and Cleantech sectors are transforming in line with regulatory compliance, advancements in technology and the search for a more sustainable future.

To help our Clients, SNG Grant Thornton has brought together a team of professionals with proven experience and high competence.

From policy alignment to strategy formulation and digital transformation, we address the diverse and complex challenges faced by operators in these spaces.

#### Our services

Together with our global Grant Thornton network, we are able to provide assistance in advisory services and auditing to include:

- Business Consulting
- Taxation
- Business Risk Services
- Business Outsourcing
- Forensics
- Data Analytics
- Cyber Security
- Programme Management

### Key questions for leaders in Utilities and Cleantech Sectors:

Can we optimise business operations and strategy?

How can we maximise Environmental Social and Governance (ESG) investment?

Are we complying to legislation and regulatory frameworks? And do we have the necessary licences?

Are there ways to implement emerging technologies?

How do I setup operations in South Africa?

What financial and non-financial support is available?

Do we understand all the taxation rules? And are we leveraging tax savings?

What is our carbon footprint?

**Should you have any queries, please do not hesitate to contact our ENR industry team.**
