

IFRS S1 and S2 Ready in-a-Box

A ready-made solution
to simplify sustainability
reporting

Move from fragmented ESG reporting to an implementation-ready solution fully aligned to IFRS S1 and S2. Sustainability reporting is complex, your response doesn't have to be.

Rapid deployment
in weeks

70% faster,
reporting cycles

One platform,
managing all data

What is in the box? A fully integrated advisory and technology solution built specifically for IFRS S1 and S2 compliance.

Pre-configured IFRS
S1 and S2 framework

Readiness assessment
and gap analysis

Automated, audit-ready
report generation

Advisory support
and regulatory
interpretation

Why companies are struggling

- ✓ Regulatory pressure is rising
- ✓ Manual reporting is slow and resource-intensive
- ✓ Reporting is fragmented and hard to audit

A faster route to readiness

- ✓ Ready-made templates
- ✓ Centralised data collection and consolidation
- ✓ Regulator-ready outputs

Tech capability - The GovEVA AI advantage

- 1 Auto-synthesised qualitative disclosures**
Converts fragmented inputs into more structured, audit-ready narratives.
- 2 Multi-modal input and document ingestion**
Accepts structured data, freeform text, and uploaded reports.

- 3 Cross-section consistency engine**
Helps ensure IFRS S1 and S2 responses are coherent and aligned.
- 4 Multi-framework reporting capability**
Supports reporting across multiple frameworks through a more connected data environment.

Let's get you IFRS-ready

Partner with us to move from fragmented reporting to, regulator-ready compliance, faster than you think.
