

# Programme assurance & advisory

Helping you successfully navigate through change!

**Is your project portfolio successfully delivering on your organisational strategy? Are your projects delivering the intended benefits? Are your projects being delivered on time, within budget and to the required quality? How are you giving comfort and assurance to the Board? We are here to support you on your transformational journey to achieve successful change!**

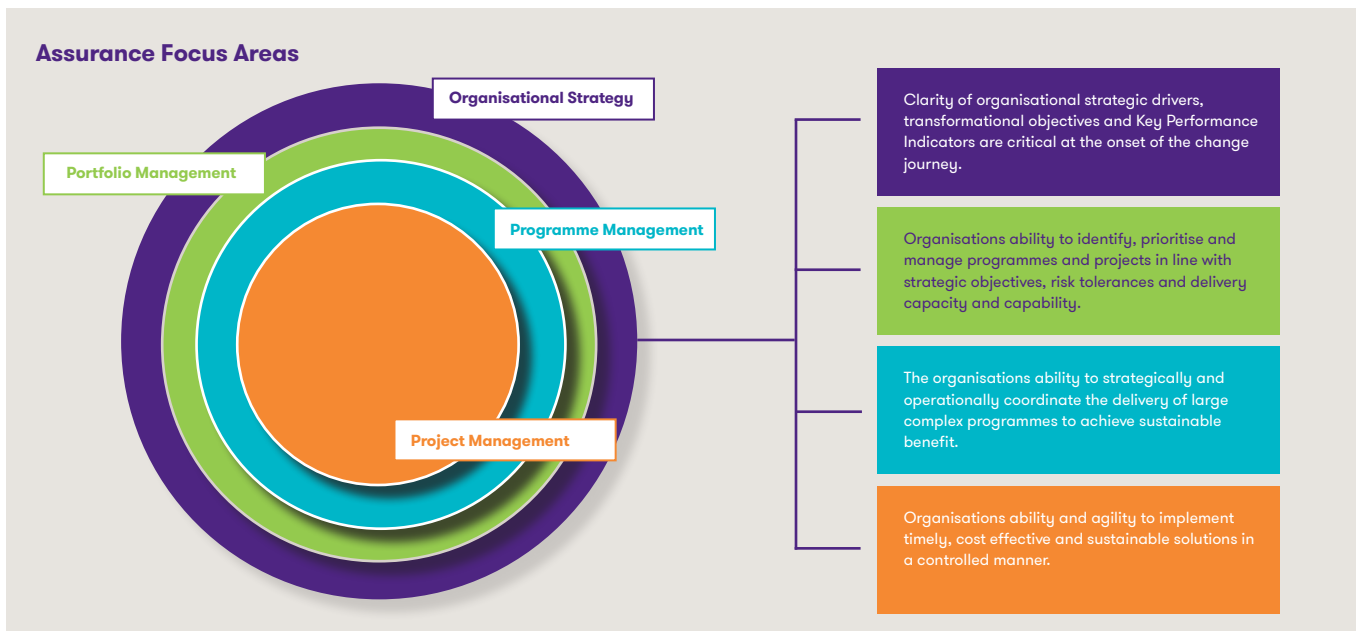

## Our Service Offering

Our highly skilled and experienced team is waiting to partner with you in providing professional Assurance and Advisory support as you navigate through change. We ensure sound understanding of your business operations, strategic objectives, strategic initiatives, and project portfolio in order to provide real time Assurance and Advisory feedback to executive management and those charged with oversight responsibilities.

Our aim is to protect shareholder value by providing Assurance and Advisory services on change portfolios and large-scale programmes prior to implementation, assist organisations in maturing their control environment and ensuring projects stay on track and achieve their intended impact.

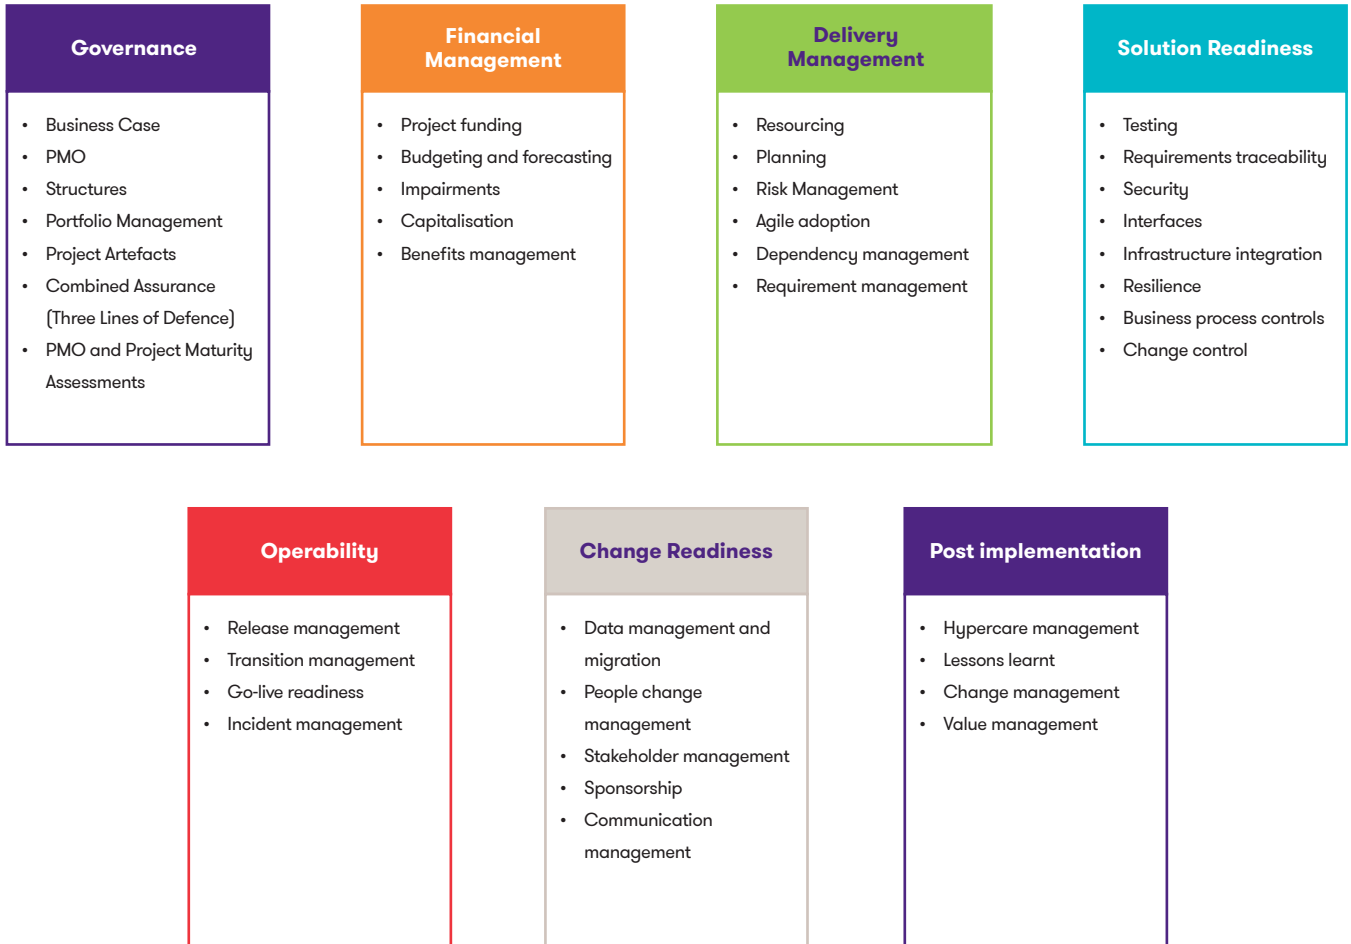

In a world where change is vital for survival and being an early mover gives you the edge in competitive markets, the need for sound project management and effective solution delivery is increasingly important.

Establishing governance practices and a control environment that aligns to the agility of change is pivotal for success.

## Programme Assurance and Advisory Framework

Our robust Programme Assurance and Advisory framework follows a risk-based approach covering key components across various project delivery methodologies. We thrive on agility as our coverage and approach is tailored to fit our clients' needs, whether it being independent Assurance or Professional Advice as part of their Project Management Office or delivery and risk teams.
