

eProcurement Made Easy

Affordable, powerful and easy-to-use software

Grant Thornton Strategic Initiatives powered by SourceDogg, is a leading eProcurement and service provider committed to offering the easiest-to-use procurement software experience globally.

Sourcing

Find and qualify suppliers maximising value within your sourcing process. Create templates or expert packs and share best practice across your organisation. Quickly evaluate and compare supplier responses with user-friendly reports.

Contract Management

Centralised electronic repository allowing organisations to store, track, share and monitor contracts enabling them to manage the right contract at the right time. Define contract teams and maximise operational performance.

Catalogue Management

Simplify the purchasing process with pre-approved catalogued items and increase control over spend. Maintain up to date supplier items and pricing, ensuring quality and configurability to buyers requirements, thereby helping to extend the use of framework agreements.

Supplier Evaluation

Evaluate, approve, monitor and manage suppliers. Audit qualifications, non-conformance issues and ensure your organisation has access to up to date supplier profiles. Minimise risk impacts across the organisation.

Supplier Management

Gain total visibility into supplier information such as contracts, quotes, performance, certificates and contacts. Alleviate risks and ensure suppliers meet expectations defined in contracts and market norms.

"We thought we had negotiated keen prices before we implemented SourceDogg, but it has allowed us to squeeze an additional 6-15% out of that pricing."
Tifco Hotel Group

SourceDogg helps professionals with their purchasing processes, making them easier, faster, cost effective and transparent.

Supply Chain Verification Services

Grant Thornton Strategic Initiatives powered by SourceDogg help to automate collection and cleansing of supplier data, eliminating manual processes and paperwork. We work with clients and consultants to quickly transform supply chain data.

Supply Chain Category Coverage

Surveying existing suppliers to determine the categories they cover. We often find clients are only using suppliers for a narrow range of their coverage.

Supply Chain Contracts

Collecting the contract data for the various departments of the supplier's organisation and saving it to a Supplier Relationship Management database.

Supplier Pre-Qualification

Establish company specific pre-qualification questionnaires for new suppliers ensuring consistency and helping where clients are moving into new markets or regions.

Supply Chain Competence

Collecting supplier qualification certificates (ISO, insurance, industry certificates) to ensure suppliers are appropriately qualified to supply the various categories of goods and service.

Supply Chain Innovation

Collecting new ideas and developments from new and existing suppliers, improving outcomes or assisting in the delivery of savings.

Grant Thornton Strategic Initiatives provides eProcurement facilities that combine complexity of functionality with simplicity of execution – powered by SourceDogg.

The SourceDogg package offers clients an intuitive, easy-to-use interface that is accessible to both procurement specialists and casual users alike.

Scalable to growing and changing client needs, this tool gives clients the opportunity to enhance both the efficiency and effectiveness of procurement within their organisation.

The platform enables:

- Oversight and direction for all purchasing within a client's company
- The sharing of expertise and best-practice
- Robust reporting functionality
- Detailed insight and analytics.

Supplier Relationship Management

Grant Thornton Strategic Initiatives powered by SourceDogg, provides organisations with an easy to use tool for managing suppliers in order to maximise the value of supplier interactions. SourceDogg works with clients and consultants to quickly transform supply chain data.

Supplier Profile Enhancement

Dashboard timeline of Supplier interactions – responses, certifications, documents and related contracts.

Supplier Relationship Status

Dashboard your Supplier relationships or performance issues. Review, manage and monitor supplier accreditations and compliance.

Supplier Opportunity Dashboard

Suggested supplier consolidation opportunities, missing Supplier categories, Supplier services leveraging and duplicate Suppliers.

Supplier Contact Details Management

Automate the gathering of information to ensure suppliers maintain up to date and accurate contact information.
